

# Pilot VERSION TRI-PROOF

**Smarter tri-proof lighting**

**Multi-power options**

**Wider beam angle**

**Easy to repair**

## Pilot VERSION TRI-PROOF

### Smarter tri-proof lighting

We can always be smarter. ERVAN pilot tri-proof could give you fantastic experience of how to be a smart tri-proof. Stocking separately the product and sensors, installers can finish the sensor installation in seconds. Win-win solution for saving stock and labor cost. Meanwhile, Microwave and PIR sensor options could meet most of the requirement to save energy.

### Easy to repair

We always follow up the latest Ecodesign regulation, so that ERVAN pilot tri-proof lighting is a product good to repair with modular design. LED driver, PCB board, sensor etc..all easy to do maintenance, you will find out the product is prepared for the future.

### Multi-power options

We are always headache about less of storage when facing different application requirement. Then we definitely need a multi-power function tri-proof as standard option, because it means we always have back up solution on different lumen options with in one product.

### Wider beam angle

For the application such as parking garage, low raked warehouse etc..where the installation height is low, the biggest problem is how to keep the whole space even illuminated. ERVAN pilot tri-proof lighting has a very wide beam angle of 150° and 23% up lighting, this could guarantee enough light for the space.

## Feature

- MultiLumen with power adjustable
- Tool-free and fast installation
- 3 Through-wiring
- High efficiency up to 160lm/W
- DIN EN 60598-2-24 D mark available
- PIR&Microwave sensor available
- Flicker free

## SMARTER TRI-PROOF

# PILOT VERSION TRI-PROOF

EASY TO REPAIR

# WIDER BEAM ANGLE

## OPTIC

- + Efficacy 160lm/w
- + 150° beam angle
- + Up to 6400lm
- +  $\eta$  up(%): 23.7
- + SDCM<3
- + Ra > 80

# CHARACTERISTICS

Mechanical characteristicsIK08 IP65

Profile	Extruded polycarbonate with UV protection
Endcaps	Injected polycarbonate
Gasket	Removable and recyclable silicone
Color	Grey(RAL7035)
Cable entry	M20 Cable gland

Electrical characteristics

Mains voltage	220~240Vac/50~60Hz
Connection	3 push-on terminal connector
Power factor	>0.93 full load
Flicker factor	<1%
SVM	<0.4
Pst	<1

Photometrical characteristics

SDCM	< 3
Beam angle	150°
CRI	>80, >90 on request
Luminous Flux	3520~6400lm
CCT	3000K, 4000K, 5000K, 6500K

Functional characteristics

Lifetime	L80B10 100,000 hours at 25°C
Smart control	Microwave sensor/PIR
Fire protection	Glow wire test (EN 60595-2-11): 850°C

PARAMETERS

Non-through wiring

Through wiring

Standard version(Power adjustable)

Model NO. / Length	Power adjustable(W)	Multiple Lumens 160lm/W
TP01 / 1200mm	22/30W	3520/4800
TP01 / 1500mm	30/40W	4800/6400
